

I am a concerned voter regarding the changes in regulations regarding my home station of K-LOVE. This station is a huge asset to my community and serves me with wholesome, encouraging music and commentary that is important to me and my family without being offensive and crude. I have been a financial supporter of this station for many years and to have it replaced by an LPFM broadcaster would be a disservice to thousands in my area that now have an alternative to secular schlock and are willing to pay monthly to continue that service. If it were not an important part of our lives, it would have gone off the air due to lack of interest and financial support. However, since it has not that is a solid indicator that K-LOVE is an important part of our community and my life. Please consider these things before attempting to implement this new proposal. Thank you for your time and commitment to decent broadcasting. Sincerely, Lisa M. Thiessen Denver, CO.
